NATILIK

Cyber Security

Natilik, your cyber security partner of choice

With an ever-expanding threat landscape, you need to ensure your data, network and brand are secure from malicious intent.

Cyber security is an ever-evolving challenge, growing increasingly complex. As cyber-attacks become more sophisticated, the loss of the traditional network perimeter, coupled with the rise in remote working, necessitates enabling users to access data, applications, and services from anywhere in the world on any device. This significantly enlarges your organisation's attack surface. Therefore, it is crucial to integrate security into every aspect of your organisation's infrastructure to safeguard against attackers and advanced persistent threats.

Five pillars of cyber security

Natilik delivers five outcome-driven pillars of excellence around security, all underpinned by the Natilik Platform.

User Security	Cloud Protection	Breach Prevention	Network Security	Smart Buildings
Solutions that are designed to protect your users from threats across all attack vectors targeting them.	Comprehensive security and visibility for your hybrid and multi-cloud networks, workloads and applications.	Accelerating your response across the most prominent attack vectors including email, endpoints, network, and cloud.	Securing your applications, data and IT infrastructure in your data centres and in your buildings.	Providing secure access and smart insights for your companies' premises.

The Natilik Platform

Natilik partners with market leading security vendors

Our partners have been selected based on the credibility of their solutions in the industry. By being selective about the vendors we partner with, Natilik ensures it delivers proven solutions that its people are truly experts in. This way of operating means you can benefit from enhanced experience and unique services that bring true, distinguished value.

Why Natilik?

Capability	Coverage	Consistency	Culture	Clients
We pride ourselves on having the broadest depth of capability and the expertise that our clients can trust to guide their business forward so they can achieve their goals. If we don't believe we have the expertise to help, we are comfortable saying no.	We support clients in over 60 countries worldwide. Operating out of our three centres of excellence in London, Sydney and New York, Natilik provides in-region support for clients across the globe.	Natilik offers you a global approach, utilising one unified set of systems, processes, governance, and methodology, driving a consistent customer experience. Also, by having a dedicated team, you will have consistency in your interactions.	Natilik prides itself in bringing together a group of passionate people united in a common purpose. Put simply, we believe that Natilik is big enough to matter, but small enough to care.	We hold strong partnerships with some of the world's most respected organisations, which trust Natilik as their long-term partner for success. This is reflected in our consistently high NPS scores and client retention rates.

As an award-winning, highly accredited security partner you're in safe hands with Natilik.

Register for a Cyber Security Discovery Workshop

Take the next step in your cyber security journey with Natilik today and register for a cyber security discovery workshop. Taking the time to understand your current security posture and any challenges you are facing, our team of security experts will discuss the art of the possible, helping to define your ideal future state and roadmap how Natilik can help get you there.
