

# Why Cloud Calling?

Cloud Calling from Natilik allows you to have all the benefits of a traditional office phone system, without the cost and complexity of managing an on premises phone system infrastructure.

Here are ten ways Webex Cloud Calling from Natilik can help you rapidly enable a productive and secure remote work environment for your organisation.

## Never Miss A Beat

Enable your employees to take calls with their business number from anywhere, on any device.

## Add the Tools You Need

Setup advanced team collaboration in minutes, including integrated team messaging, meetings, file sharing, and screen sharing.

## Use Your On-Prem Equipment

Automate call forwarding from your current office phone system to your newly remote staff.

## Manage From Anywhere

One central cloud app for all your administrative functions.

## Integrate With How You Work

Compatible with Microsoft, Salesforce, Box, ServiceNow, and more.

## Bring Your Own Carrier

Continue using the service provider you're most comfortable with or let Natilik get you set up with one - the choice is yours!

## Deliver an instant home office

Support your employees at home with integrated phones, headsets, and video devices.

## Fully Secure

Services are locally delivered over the global Webex backbone, which means you're backed by Cisco global security protocols.

## Dedicated 24/7 support

SLA driven 24/7 support from Natilik experts at the end of the phone 365 days per year.

## Your Solution, Your Way

Call recording? Speech intelligence? Cloud Queuing? Choose from a selection of available bolt ons to ensure all your boxes are ticked.

## Next Steps

Speak to our experts to carry out a personalised cloud calling demo today and see where Natilik can help you get the most out of your collaboration infrastructure.
