

# Simplify your security with SecureX

Cisco SecureX delivers a simplified platform experience, connecting your infrastructure with Cisco's secure portfolio. By unifying your entire security ecosystem in one place, you can breathe easy with simplified security.

## Before SecureX

Your teams regularly switch between consoles resulting in limited understanding and delays.

Your workflows are manual and convoluted, further slowing you down and causing human error.

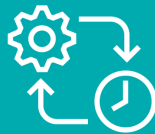

Your teams currently operate within siloed views increasing their exposure.

There exists a lack of integration between tools, limiting their value.

## After SecureX

Accelerate threat response with actionable insights.

Increase the efficiency and precision of your existing resources via automation to advance your security maturity.

Share context between teams to streamline workflows.

Multiply your capabilities by connecting your security infrastructure.

## SecureX will enable you to...

Unify visibility across your entire security infrastructure.

Automate critical security workflows.

Collaborate better than ever.

Reduce complexity and maximise portfolio benefits.
