

The Innovation Centre

Making the office a magnet...

Welcome to The Innovation Centre

It's no secret that the way we work is evolving. Once defined by the physical corporate office, the 'workplace' now means the freedom to work from anywhere — seamlessly — whether that's the office, home, or on the go. As technology has advanced to support this shift, the purpose of the office has transformed. It's no longer just about completing daily tasks; it's about showing up with intent, fostering meaningful connections, and creating experiences that inspire — all within a safe, inclusive environment. This evolution presented Natilik with a once-in-a-generation opportunity: to design a space that truly reflects its culture...

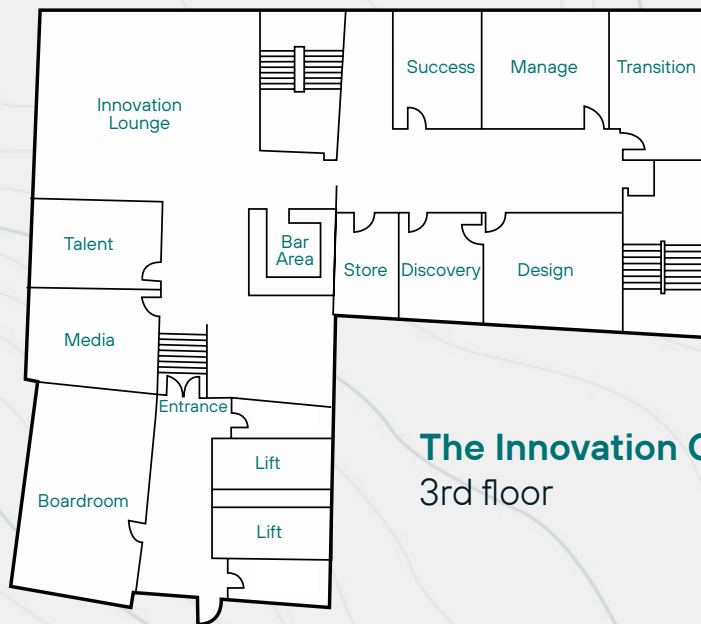

Possible together.

3rd Floor | 9A Devonshire Square | London | EC2M 4YN

Instead, it needed to evolve to be a space to...

The new normal...

The Natilik team has tripled over the past five years and continues to grow. Traditionally, office space and physical desks would have expanded at the same pace. However, recent shifts created a moment of choice. Rather than adopting a fully remote strategy or returning to the office full-time, feedback from internal surveys and workshops made one thing clear — flexibility was key. As a result, the need for the third floor of Natilik's London office to be primarily dedicated to desk space no longer existed.

Introducing... The Innovation Centre

Each zone within the Innovation Centre is designed to deliver an exceptional experience for Natilik's people, clients, candidates, and partners. Some zones align with our proven services methodology, enabling clients to physically navigate each stage of their solution lifecycle, while others focus on fostering connection – creating a safe, welcoming space for everyone.

Innovation Lounge

With comfortable furniture, dynamic workspaces, and an open-plan bar area, the Innovation Lounge sets the stage for the exceptional experience awaiting Natilik's people, guests, and clients. A simple draw of the curtain transforms the space, creating a private, flexible hybrid event area — all while ensuring a seamless visitor experience.

Media

Natilik experts are always exploring new and innovative ways to keep clients and the wider user community informed — from the latest technology updates to industry regulations and peer insights. To support this, the Media Zone features a state-of-the-art content studio, equipped with green screen video and podcast recording capabilities.

Media

Talent

The Talent Zone offers a welcoming and inclusive space for everyone moving through Natilik's interview process. From a library of thought-provoking reads to a round table that seats candidates and hiring managers as equals, it's designed to encourage open conversations in a relaxed, supportive setting.

Talent

Design

Discovery

No matter the size or complexity of their needs, every client's journey with Natilik begins in the Discovery Zone. This is where key stakeholders and Natilik experts come together to explore business goals and define the outcomes they aim to achieve.

Design

After moving from Discovery to Design through an internal connecting door, clients enter a space built for fully interactive, live demonstrations and workshops of their proposed solutions. The high table was intentionally chosen to foster a relaxed, informal atmosphere — encouraging open interaction and conversation.

Discovery

Transition

Blending interactive collaborative technology with a traditional whiteboard wall, this space is designed for mapping project timelines, creating Gantt charts, and brainstorming objectives. It's the ideal environment for guiding clients through the transition phase of their project alongside the Natilik team.

Transition

Manage

Success

Manage

Inspired by the tiered seating of a traditional auditorium, the Manage Zone is designed to bring thought leadership, training, and enablement sessions to life in a versatile space. Here, the Natilik team collaborates with clients to gain a deep understanding of their goals and the services that will continuously drive value for their businesses.

Success

The Success Zone is dedicated to ensuring Natilik's clients are not just using, but truly benefiting from their technology investments. Whether it's at the start of their journey, defining key success criteria, or post-deployment, ensuring adoption and maximising usage, this space is fully adaptable. It can easily transition from a relaxed sofa conversation to a more formal table discussion, depending on the nature of the meeting.

Cool and Boardroom

As the name suggests, Boardroom is the ideal zone for formal meetings that require larger groups of in person and hybrid attendees, whilst still maintaining confidentiality and privacy. Here, the Natilik team hosts board meetings, executive client presentations and Quarterly Business Reviews with global attendees. This space also features Cinematic Meetings powered by RoomOS—a groundbreaking experience where AI works like a film director, dynamically adjusting perspectives to keep you fully immersed in every moment. So, say goodbye to static screens and hello to a meeting experience that feels personal, engaging, and, above all, seamless.

Powered by...

The Innovation Centre is home to best-in-class collaboration technology and a strong infrastructure that enables the Natilik team to work with purpose. From world-class endpoints and collaborative devices, to a robust and agile network that securely connects them to the data, applications, and resources they need.

Consistent meeting experiences across every platform, including WebEx, Microsoft Teams, Zoom and Google Meet
